

Appl. No. : **10/065,120**
Filed : **September 18, 2002**

REMARKS

Reconsideration and allowance of the above referenced application are respectfully requested.

The indication that claims 4-7 are allowed is appreciatively noted. In response, claims 4-7 are retained herein. In addition, however, each of the remaining claims in the case are amended to recite the "testing" limitation from these allowable claims 4-7. Many of these claims are also broadened in the process of this amendment.

None of the prior art is in any way suggestive of such a test module. Accordingly, all of the current claims as amended should be allowable, for similar reasons to those for which the examiner found claims 4-7 allowable.

This should render all claims allowable, and a notice of allowance is respectfully requested for these reasons.

It is believed that all of the pending claims have been addressed in this paper. However, failure to address a specific rejection, issue or comment, does not signify agreement with or concession of that rejection, issue or comment. In addition, because the arguments made above are not intended to be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as specifically stated in this paper, and the amendment of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment.

Appl. No. : **10/065,120**
Filed : **September 18, 2002**

Therefore, for reasons stated above, it is respectfully suggested that all of the claim should be in condition for allowance. A formal notice to that effect is respectfully solicited.

Please charge any fees due in connection with this response to Deposit Account No. 50-1387.

Respectfully submitted,
